**Re. Part 8 (PT8TT7) in respect of Improved Cycle Lanes on the R688, Cashel Road, Clonmel**

Dear Mr. O'Connor,

TII acknowledges receipt of the Part VIII 'Improved Cycle Lanes on the R688, Cashel Road, Clonmel' referral and provides the following observations for the Councils consideration.

- It is noted that the Part VIII proposal relates to works that include alterations to the N24 roundabout junction with the R688 to warrant the submission of a Design Report in accordance with TII Publications requirements.

TII has no record that a Design Report has been submitted in relation to the proposed alterations to the N24 Roundabout Junction with the R688. Approval of the Design Report is required prior to Statutory Processes, in this case a Part 8. This process is set out in TII Publication GN\_GEO\_03030.

- In addition, consultation should take place with the N24 Waterford to Cahir Project Team to ensure Part VIII proposals are consistent with the NDP national road scheme.

Any revisions to the Part VIII proposal to address the issues identified in the foregoing shall be incorporated into the design prior to determination of the Part VIII in the interests of safeguarding the safety and strategic function of the national road network in the area.

It is requested that the foregoing observations are taken into consideration in the assessment and determination of the proposed Part VIII development.

Yours sincerely,

Michael McCormack  
Senior Land Use Planner
