## Submitter

Name	pat hayes
Address	saint annes clongour road thurles E41RH29
Note	<p>-i completely oppose the removal of parking from Liberty Square . This will cause a detrimental effect on the business on the square as has already been proven with the previous development -this plan will not improve safety while thousands of HGVs come through town every day -an sssessment needs to be done of the financial impact of this plan to trade in town centre - the plan will not improve access for emergency vehicles - the trial period for the single lane on Supermacs side was too short. We want it trialled for one month and the other build-outs should be trialled too - the changes on Rossa St will block delivery access for businesses on the street - i oppose the planned bus stop on Rossa st A full trial must be completed to get a true example of how the traffic will flow as the test that was already done was carried out for less than a day and it was during the Easter holidays when there were no schools . A full month should be tested with all the plans included. Remove people from an area and you will remove business. And a statement of some will win and some will loose is not a good enough reason or excuse for loss of business , which was said to me at a meeting, by the town engineer , when I told him that I would have to close my deli business in the square as a direct result of parking being removed. Also a public consultation should also take place where notes and opinions should be actually recorded</p>

## In relation to application

Application Number	PT8TT136
Applicant Name	Tipperary County Council
Development Address	Garryvicleheen and Townspark Co. Tipperary
