## Submitter

Name	Supermacs Ireland LTD.
Address	Ballybrit Business Park Ballybrit Galway H91 FX54
Note	<p>We are writing to express both my support and concerns regarding the upcoming public realm project. I believe that enhancing the aesthetic appeal of our town is vital for creating a welcoming and vibrant environment. However, We are concerned about the proposed removal of valuable parking spaces as part of this project. Parking is a critical resource in our community, particularly for local businesses and the public who rely on convenient access to shops, &amp; services. The reduction in parking could potentially lead to increased traffic congestion, reduced accessibility, and a negative impact on local business. While we fully support the initiative to improve our public spaces, I We urge the project team to consider alternative solutions that preserve essential parking capacity. This could involve reconfiguring the design to incorporate parking areas, creating additional parking elsewhere, or introducing innovative options such as shared or time-limited parking zones. By addressing the need for parking while pursuing aesthetic and functional enhancements, we can ensure that the project benefits the entire community. I look forward to seeing a final plan that balances these important aspects. Thank you for considering my input.</p>

## In relation to application

Application Number	PT8TT136
Applicant Name	Tipperary County Council
Development Address	Garryvicleheen and Townspark Co. Tipperary
