Submitter

Name	Anthony Moroney
Address	Thurles Municipal District Offices Castle Avenue Thurles E41 KA44
Note	The proposed changes are welcome, However it would be beneficial if a segregated Cycleway (or wider shared use pathway) could be introduced linking the Ballycahill road Junction to the Gaa pitch entrance and possibly beyond to the Community Centre. this would allow for safer mobility of children and adults accessing these community facilities and could be also used to access the school via the uncontrolled crossing. I welcome the introduction of the out of lane Bus stops as this will provide for safe alighting & egressing of the vehicles. Please ensure these meet Wheel chair accessibility standards when implementing. It would be beneficial if there was some seating provided at these bus stops to allow older individuals to rest while waiting for the Bus..
