Ref: Phase 2 Liberty Square Public Realm Scheme

Dear Liam,

Please accept this submission in respect of the above-referenced planning application for the proposed Phase 2 Liberty Square Public Realm Scheme works in Thurles, Co. Tipperary. TFI Local Link Tipperary has reviewed the plans and particulars submitted with the application and have the following observations;

1. Bus Stop Location on Liberty Square on Mocklers Chemist side.
There are no road markings to prevent cars/other vehicles from parking between the Parnell Street Junction and the Bus stop bay. Should vehicles park in this location then the Buses will not be able to pull in sufficiently off lane and will ultimately cause disruption.
Please add road markings to prevent cars/other vehicles parking in this area.
See attached edited drawing
2. Consider adding an additional Bus stop Location on Liberty Square to be perhaps positioned at the Supermacs side of the Square. This would be helpful for two reasons.
 - a. The Mocklers Chemist Bus stop bay size is only sufficient for one bus to be stopped at any one time. There are multiple services stopping in the Square, with more identified to come on stream over the next number of years under the National Transport Authority's Connecting Ireland Project.

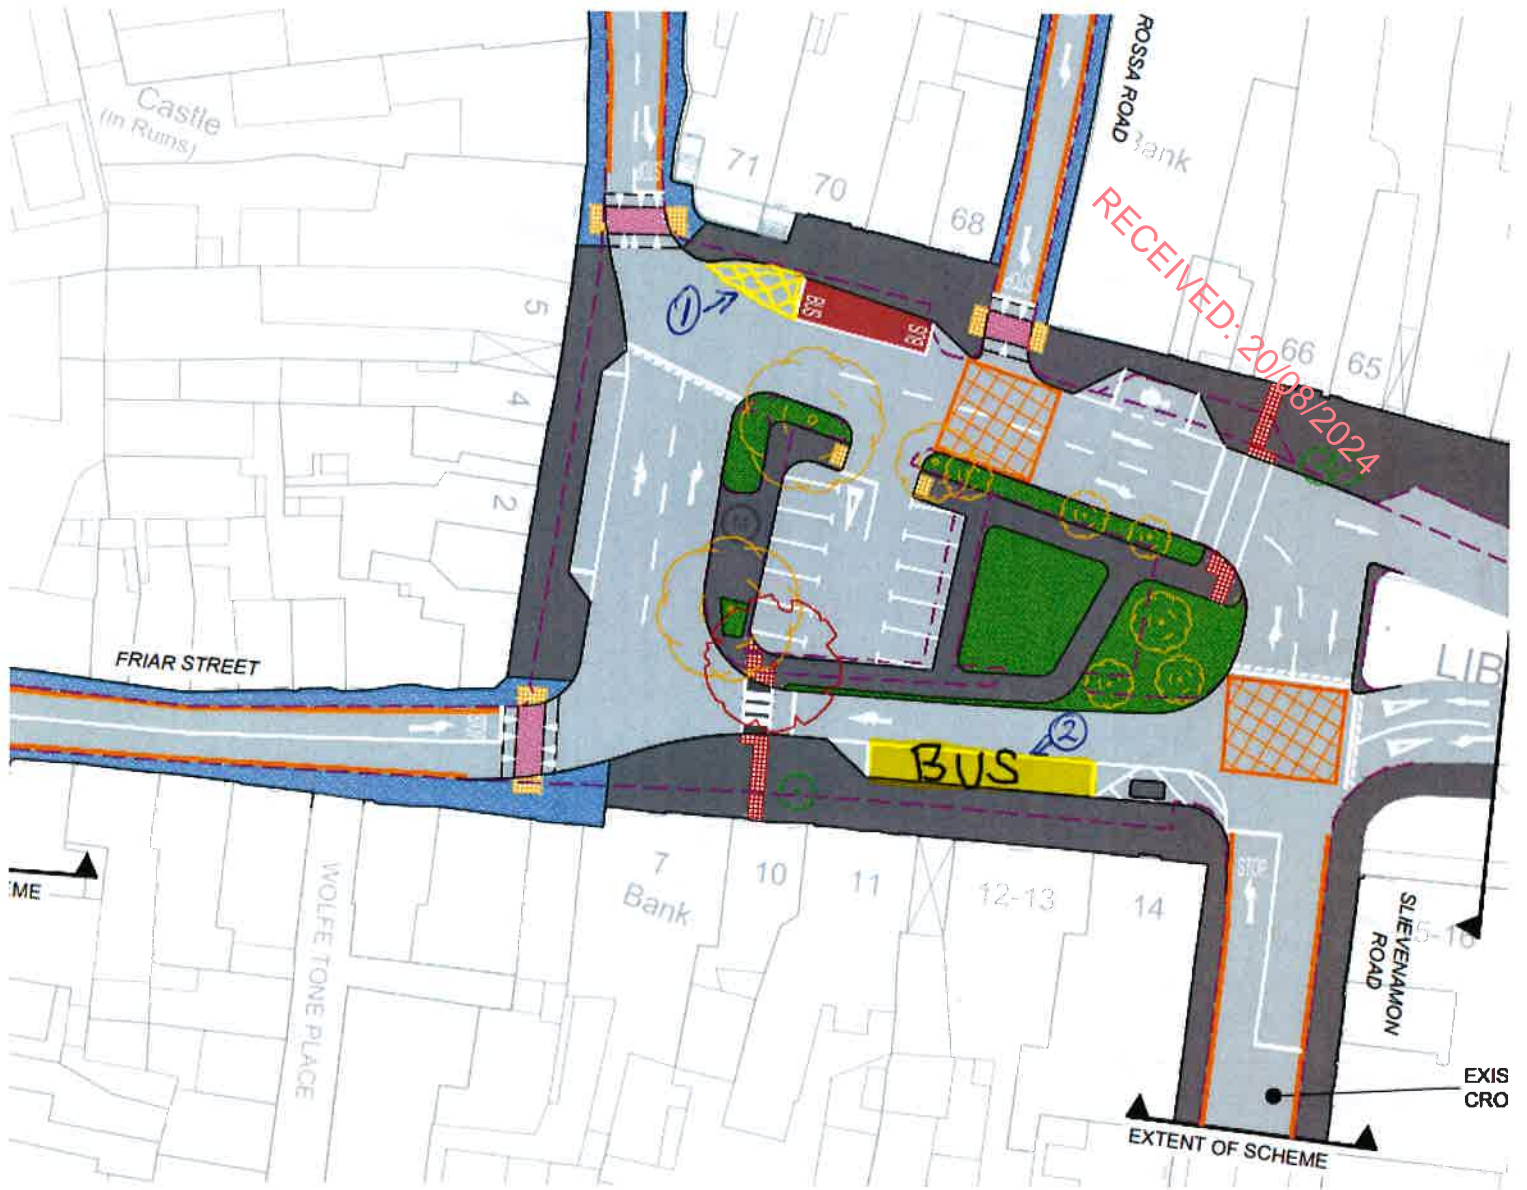

- b. Buses (particularly for services that do not terminate or commence in Liberty Square could when arriving into the Square from the Slievenamon road (N62) and from the Dublin Road (N75) can drop passengers at the proposed indicated stop (Supermacs side) without having to circulate 360° around the square. This would alleviate congestion and disruption.
See attached edited drawing.

Signed
