## Submitter

Name	Edel Gissane
Address	Coosane Birdhill Co. Tipperary V94H6H9
Note	Dear Sir/ Madam, While I commend your efforts to promote active travel I object to the removal of the centre lane for turning in Birdhill village as this will present an additional danger to myself, my family and friends who use the village and indeed all visitors and existing and future users of the village. The Newport / O'Briensbridge junction is an already demanding and tricky one without adding further complexity to lanes and users. The centre lane is essential for safe turning right at the Newport / O'Briensbridge junction which I use every day and am fully aware of the hazards of traffic travelling from behind me in the village, Introducing a narrow lane and no slip lanes, plus adding in cycle lanes which dissect safe exit and entrance from this junctions would be a serious danger in my opinion and should be removed from the scheme, Yours faithfully, Edel Gissane
