## Submitter

Name	
Address	Arravale Terrace, Galbally Road Arravale Terrace, Galbally Road Arravale Terrace, Galbally Road
Note	<p>Hello, This looks like it going to be a great facility. Thank you. However 10 parking spaces, only two of which are disabled is not sufficient. To be inclusive of all needs, and taking account of the purpose of this facility (becoming training centre), surely at least 30 spaces, with at least 5 being disabled to accommodate the public, or a staff member, or the IWA are necessary. Even one small class, of 10 students and trainer, being the only resource in operation on a given day would have the spaces at capacity.. It would seem a pity to create a great resource and then have it not reach it's potential due to inaccessibility. Ideally for disabled access it would be brilliant if there was an underground parking facility to eliminate the elements, however I know that's probably asking too much! Please also ensure the disabled spaces are right beside the entrance door and the ramp access, as not everyone who has mobility issues is in a wheelchair and walking can be challenging. This is also necessary for elderly or people recovering from operations etc. So we would appreciate it if the access could take that into consideration, and ensure that ease of accessibility is a feature of the building that extends to the entrance and parking area also. The toilet facilities sound great, but people would have to get there first. (The excel is an example of there only being one space, always occupied and at the wrong side) Thank you for your time, and the opportunity to submit this information. Best wishes.</p>

## In relation to application

Application Number	PT8TT2
Applicant Name	Tipperary County Council
Development Address	Dan Breen House, 74 Davis Street, E34 YN72
