**Re: Part 8 in respect of Improved Cycle Lanes on the R688, Cashel Road, Clonmel**

Dear Mr O'Connor,

The National Transport Authority ('the NTA') has reviewed the documentation related to the proposed Part 8 scheme for Cashel Road, Clonmel, and wishes to submit the following observations.

**Provision for bus**

The NTA is at an advanced stage in the planning of a town bus service to serve Clonmel, in collaboration with Tipperary County Council.

While supportive in principle of the scheme layout as proposed, the NTA requests the inclusion of additional or revised bus stops and infrastructure as follows, to ensure the optimal implementation of the planned town bus service:

- Drawing no.3: The relocation of the stop pair to the immediate south of Gort Na Smol to a point further south, such that it lies between Chestnut Avenue and Longfield Avenue, and the revision of this stop pair to a staggered layout, i.e. not immediately opposite each other; and
- Drawing no.4: A new southbound stop at Boston Scientific to form a pair with the proposed northbound stop, and a new pedestrian crossing or refuge to facilitate the crossing demand created by this revised arrangement.

In the event that the Part 8 scheme is approved, the NTA is available to discuss the two proposals above with Tipperary County Council during the detailed design stage of the scheme.

I trust that the views of the NTA will be taken into consideration in the finalisation of the Part 8 scheme.

Yours sincerely,

Michael MacAree  
Head of Strategic Planning
